

## ***“Think Visegrad” - V4 Think Tank Platform***

*Project Report Document*

*January 2014 – December 2014*

*January 2015*

In the second year of its existence “Think Visegrad” – the V4 Think Tank Platform fully proved to be an *innovative instrument* aiming to enhance cooperation among V4 think tanks and develop analyses on the issues of strategic importance for the governments of the Visegrad countries. It is based on the following principles: adequate expertise, openness, flexibility and efficiency.

All experts participating in the development of Think Visegrad analyses have demonstrated professional approach and *adequate expertise* in their analytical work. Also, Think Visegrad remained to be *open* to cooperation with all interested think tanks, which is also shown on the number of participating institutions (for the list of “core network” members and other participating think tanks please see Annex 1). In addition, Think Visegrad proved to react promptly to new challenges and assignments, which demonstrates the *flexibility* of the network. Last but not least, effective spending of financial resources and moderate budget point on the fact that Think Visegrad is a very *efficient* regional initiative.

Think Visegrad experts managed to develop *12 short-term* and *4 long-term analyses* on pre-agreed topics (for the full list of developed analyses please see Annex 2). In this regard, the capacity of the Think Visegrad network was fully utilized. In order to enhance the capacity in the future it will be necessary to extend the project budget.

The Think Visegrad core network hosted *8 visiting fellows from non-V4 countries* (for the list of “Think Visegrad” visiting fellows from non-V4 countries see Annex 3). In addition, Think Visegrad core network members – in cooperation of the Center of European Policy Analyses from Washington, D.C. - successfully implemented the Think Visegrad V4-US *fellowship program for three US civil servants* in 2014. The Think Visegrad platform was also chosen by the International Visegrad Fund to implement two Civil Servants Mobility Programs in 2014. While the pilot program focused on Ukraine, the second one aimed on Georgian experts. *Total number of visiting civil servants in the framework of both Civil Servants Mobility Programs reached 35.*<sup>1</sup>

---

<sup>1</sup> Think Visegrad V4-US fellowship program and both Civil Servants Mobility Program were operated under separate budgets.

## **Annex I List of the “core network” members and other participating think-tanks**
